

Thank You for choosing the Nederland Community Center to host your class. To ensure the best possible experience for your students and their parents, the staff of the Community Center asks that you adhere to the following expectations.

- The instructor is responsible for the students in the class while they are in the building. Please be present to greet your students when they arrive or designate someone to do so.
- Please ask your students to remain in the area where the class will be taught. We are a multi-use facility and this will assure that private businesses and meetings will not be interrupted.
- Please ask your students to use the stairs and refrain from using the elevator unless they are with a parent.
- Please ask your students not to run in the hallways. This is for their safety. Adults using the Fitness Place or in the building for another activity or meeting may not be looking out for quick-moving young ones.
- Under no circumstances are children to be on the cardio-deck or in the weight rooms.
- This is a self-cleaning building-ie clean-up after yourself. If your students enjoy snack time in our building please be courteous to other building patrons and sweep-up/ pick up when you are finished.
- Please remain with your students until they are picked up by the responsible party.

Thank you. Your cooperation is appreciated.
